

SELF CHECK KIOSK

The SELF CHECK KIOSK is an all-in-one self-service library kiosk. Its large touch screen and simple interface allow for easy touch interactivity. Tagged library assets can be detected in any orientation within the read-zone and can process multiple tagged library assets once. Using self check, user may scan ID for user authentication purposes and may print receipt as proof of transaction. The built in camera also capture user image as proof of transaction.

SPECIFICATIONS

Operating Frequency	: UHF 920-925 MHz (Thailand) ISO 18000-6C, EPC Class1 Gen 2
RFID Tag Compatibility	: UHF 860-960 MHz , ISO 18000-6C , EPC Class1 Gen 2
Security Mode	: AFI , EAS
Display	: 23" LED Capacitive Touch Screen (Full HD 1920x1080 @ 60Hz.)
Audio	: Stereo
Camera	: Front Camera Photo (Up to 5MP)
Receipt Printer	: Direct Thermal with Auto-Cutter Print resolution 203 dpi, Print Speed up to 300 mm./sec.
Identification compatibility	: Omidirectional Barcode scanner : Codaber (NW7), Code11, Code128, Code32, Code39, Code 93&93i, GS1 Standard, (formerly EAN/UCC) Contactless Smartcard Reader : ISO 14443A , ISO15693
Detection Range	: > 30 cm.
Communication	: TCP/IP
UPS	: 1000 VA
Input Power	: 220V
Compliance	: FCC / CE / EN / ESTI / NBTC

FEATURES

- Borrow, Return and Renew library assets with touch interactivity
- Multi-lingual graphical user interface (Thai, English)
- Orientation-insensitive library asset read zone
- Multiple library assets processing capability
- User authentication via advanced identification technology
- Proof of transaction via physical and electronic receipt
- User image capture via camera
- Real time monitoring and report generation
- Stand alone operation during back-out
- Interactive tutorial and user guidance tool

OPTIONAL

- Custom Sticker
